

Scolome Fleet Delivery Pipeline 2026â 2032

Platform Manifest, Order Book Backlog & International Commissioning Schedule

Document Ref: ZEB-OPS-PIPE-2026 ´ • Technical Dispatch ´ • Classification: Public Release

1. ACTIVE FLEET PRODUCTION MANIFEST

The Scolome rolling stock family spans four standardized, interoperable traction architectures designed for transnational gauge and electrification conditions: Scolome Apex 350 (High-Speed), Scolome Horizon (B-EMU Hybrid), Scolome Intercity Velox (Mainline), and the Scolome Urban Pulse (Metro & Suburban EMU).

2. MULTI-YEAR DELIVERY TIMELINE & BACKLOG

- â€ 2026â 2027: 48 five-car battery-electric trainsets for northern EU regional routes; 12 Apex 350 trainsets entering dynamic route testing.
- â€ 2028â 2029: 80 high-capacity suburban EMUs deployed across Western India freight-shared corridors with automated ETCS Level 2 signalling.
- â€ 2030â 2032: Continental transnational express corridors connecting Central Europe and Mediterranean freight ports.

3. DEPOT ELECTRIFICATION & FULL LIFECYCLE SUPPORT

All pipeline vehicle deliveries include complete turnkey depot fast-charging infrastructure, dynamic pantograph monitoring gantries, and guaranteed 30-year component availability under Zebrold AssetCare contractual commitments.
